START PRODUCTION OF LATHES, ELEVATORS, DIESELS

SERIES PRODUCE LATHES -- Berlin Aussenhandels Nachrichten, 8 Mar 52

The People's Machine-Building Flant in Sofia has begun series production of modern lathes. These machines, the first of their type produced in the Bulgarian People's Republic, are of the same quality as those previously imported and 1,000 leva per unit cheaper. With applied power of 2.8 kilowatts, they perform up to 1,050 rpm. The working lengths of these lathes are 1,000, 1,500, and 2,000 millimeters. The center of the axis is 200 or 230 millimeters above the base of the lathe.

HEAVY ELEVATORS IN SERIES PRODUCTION -- Berlin, Aussenhandels Nachrichten, 1 Mar 52

The "Stalin" Machine-Building Plant has begun the production of elevators. These elevators, previously imported from abroad, are of a high quality and have a capacity of 15 tons. All parts, including the motor, are produced in the "Stalir" Plant.

BUILDS NEW DIESEL ENGINES -- Scfia, Otechestven Front, 24 Apr 52

The "Vasil Kolarov" Machine-Building Plant recently began to produce the first series of new 7-horsepower diesel engines, which make 1,500 rpm and will drive irrigation pumps.
